

The 1999-2000 Ford Motor Company/Golden Key Undergraduate Scholarships

Golden Key awards annual scholarships to the outstanding junior and senior initiates at each chapter's induction ceremony in the presence of university faculty, administrators, family and other initiates. Selection is based not only on scholastic achievement, but also on honors and awards, participation in collegiate activities, leadership, extracurricular and community involvement, employment, and family commitments. The Society has awarded nearly three million dollars in undergraduate scholarships to students with majors ranging from accounting to zoology.

Golden Key National Honor Society gratefully acknowledges the generous support of Ford Motor Company in funding these scholarships. This pledge demonstrates Ford's inspirational commitment to excellence in higher education. Since joining the Golden Key Corporate Council in 1994, Ford Motor Company has been a champion of the Society's mission. Together, Golden Key and Ford have taken great strides toward accomplishing that mission. The generous support of Ford Motor Company has empowered Golden Key to attain new heights in the recognition and encouragement of academic excellence, campus leadership and community service. Congratulations to all the recipients of the Ford Motor Company/Golden Key Undergraduate Scholarships.
